

## **Healthy Vending Machines**

### **School vending machines have a new look!**

Vending machines can be a great place for students on the run to grab a quick snack or drink. With the Ministry of Education School Food and Beverage Standards (P/PM 150), the vending machines in our school have had an overhaul! More healthy choices are now available than ever before (80% to be exact) in both beverage and snack vending machines.

Having healthy choices in our vending machines shows our commitment to making the healthy choice the easy choice for students at our school. Encourage your children to give the new, healthier options a try. And don't forget to ask what they think!

Together we can make the healthy choice the easy choice!
